

ABSTRACT

In today's fast-changing business environment, it's extremely important to be able to respond to client needs in the most effective and timely manner. If your customers wish to see your business online and have instant access to your products or services.

Online Shopping is a lifestyle e-commerce web application, which retails various fashion and lifestyle products . This project allows viewing various products available enables registered users to purchase desired products can be ordered by using Cash on Delivery (Pay Later) option. This project provides an easy access to Administrators and Managers to view orders placed .

In order to develop an e-commerce website, a number of Technologies must be studied and understood. These include multi-tiered architecture, server and client side scripting techniques, implementation technologies such as programming language (such as python), Django and relational databases. This is a project with the objective to develop a basic website where a consumer is provided with a shopping cart application and also to know about the technologies used to develop such applications.

This document will discuss each of the underlying technologies to create and implement an ecommerce website.

ACKNOWLEDGEMENT

The satisfaction and euphoria that accompany the successful completion of any task would be incomplete without the mention of the people who made it possible and whose constant encouragement and guidance crowned our efforts with success.

I consider myself proud, to be part of **Global Academy of Technology** family, the institution which stood by our way in endeavors.

I express my deep and sincere thanks to our Principal **Dr. N. Rana Pratap Reddy** for his support.

I am grateful to **Dr. Srikanta Murthy K**, Professor and HOD, Dept of CSE who is the source of inspiration and of invaluable help in channelizing my efforts in right direction.

I wish to thank my internal guide **Mrs. Vanishree M L**, Assistant Professor, Dept of CSE for guiding and correcting various documents of mine with attention and care. She has taken lot of pain to go through the document and make necessary corrections as and when needed.

I would like to thank the faculty members and supporting staff of the Department of CSE, GAT for providing all the support for completing the Project work.

Finally, I am grateful to my parents and friends for their unconditional support and help during the course of my Project work.

Amrutha K
